

WOODZONE DUAL PURPOSE F/I

Code WZ002 400gm (Makes 25 Litres)

Woodzone Dual Purpose F/I is a super concentrate supplied in a small plastic container. The special micro-emulsion formulation leads to a better penetration than obtained with the older traditional water based emulsified preservatives. It will provide the necessary control & long term protection of wood against wood boring insects & wood destroying fungi (Dry Rot & Wet Rots) for many years thereby giving confidence in any issued long-term guarantee.

Benefits of Woodzone

- Super concentrate (400gms makes 25 litres)
- Good penetration
- 1 hour re-entry
- Fully solvent free technology
- No VOC's
- Significant reduction in plastic & paper waste
- Virtually no odour
- Non-flammable

Biokil Crown Chemicals formulations are all cleared under the Government's Pesticide Safety Precaution scheme & under the Control of Pesticide Regulations 1986, for use as directed & carries the HSE Approval No 10045

Typical Applications for Woodzone

- For use on internal & external timbers, fencing & cladding out of ground & surface water contact as a wood preservative against wood boring insects & wood destroying fungi (Dry Rot & Wet Rots)

Bats: The active ingredients have been accepted by the nature Conservancy bodies as suitable for the treatment of roof voids where bats roost. However it is a legal requirement to notify the appropriate Nature Conservancy body prior to any treatment of roof spaces where bats have been identified. Treatment must not be carried out whilst bats are at roost. (see Safety).

Preparation & Application

Dilute the **Woodzone Dual Purpose F/I** 400gm container with 25 litres of water. The diluted product can be applied by brush or spray at the rate of 1 litre of product per 3-4m² of timber surface to refusal. Alternatively, timber may be dipped for a maximum of 3 minutes. Timber to be treated should be reasonably dry before treatment. Any paint varnish or other surface coating should be removed. Any bark should be removed to increase penetration of the treatment.
